STATEMENT OF COMPLIANCE

Please state clearly the compliance to each clause in the Tender Specifications. Only the following responses are acceptable:

"Compliance" or "C"	:	When the Service meet all requirements without any customisation/modification. The Tenderer shall not add comments against the clause that vary the meaning of full compliance to the clause. However, comments indicating references to literature to substantiate the response is permissible. Any other comments which will vary the meaning of full compliance will be ignored.
"Non-Compliance" or "NC"	:	When the Services do not comply with the requirements at all.
"Noted"	:	When a statement is made in the Tender Specifications which does not call for the Tenderer to meet a specific requirement but merely informs the Tenderer of a fact, then the term "Noted" will be accepted as acknowledgement that the Supplier has read and understood the information. Where "Noted" is used against clauses requiring response other than "Noted", the Supplier's response will be classified as "Compliance".

COMPLIANCE TO TENDER SPECIFICATIONS
